

Amadeus Eugene Dirgantara

Informatics student · AI and software development

Universitas Ciputra

How does a project go
from an idea to something people use?

01

Background

02

Projects

03

Plans

Software for **web, mobile and small devices**

Informatics, AI specialization · Universitas Ciputra

CGPA 3.89 / 4.00

Weighing data logger

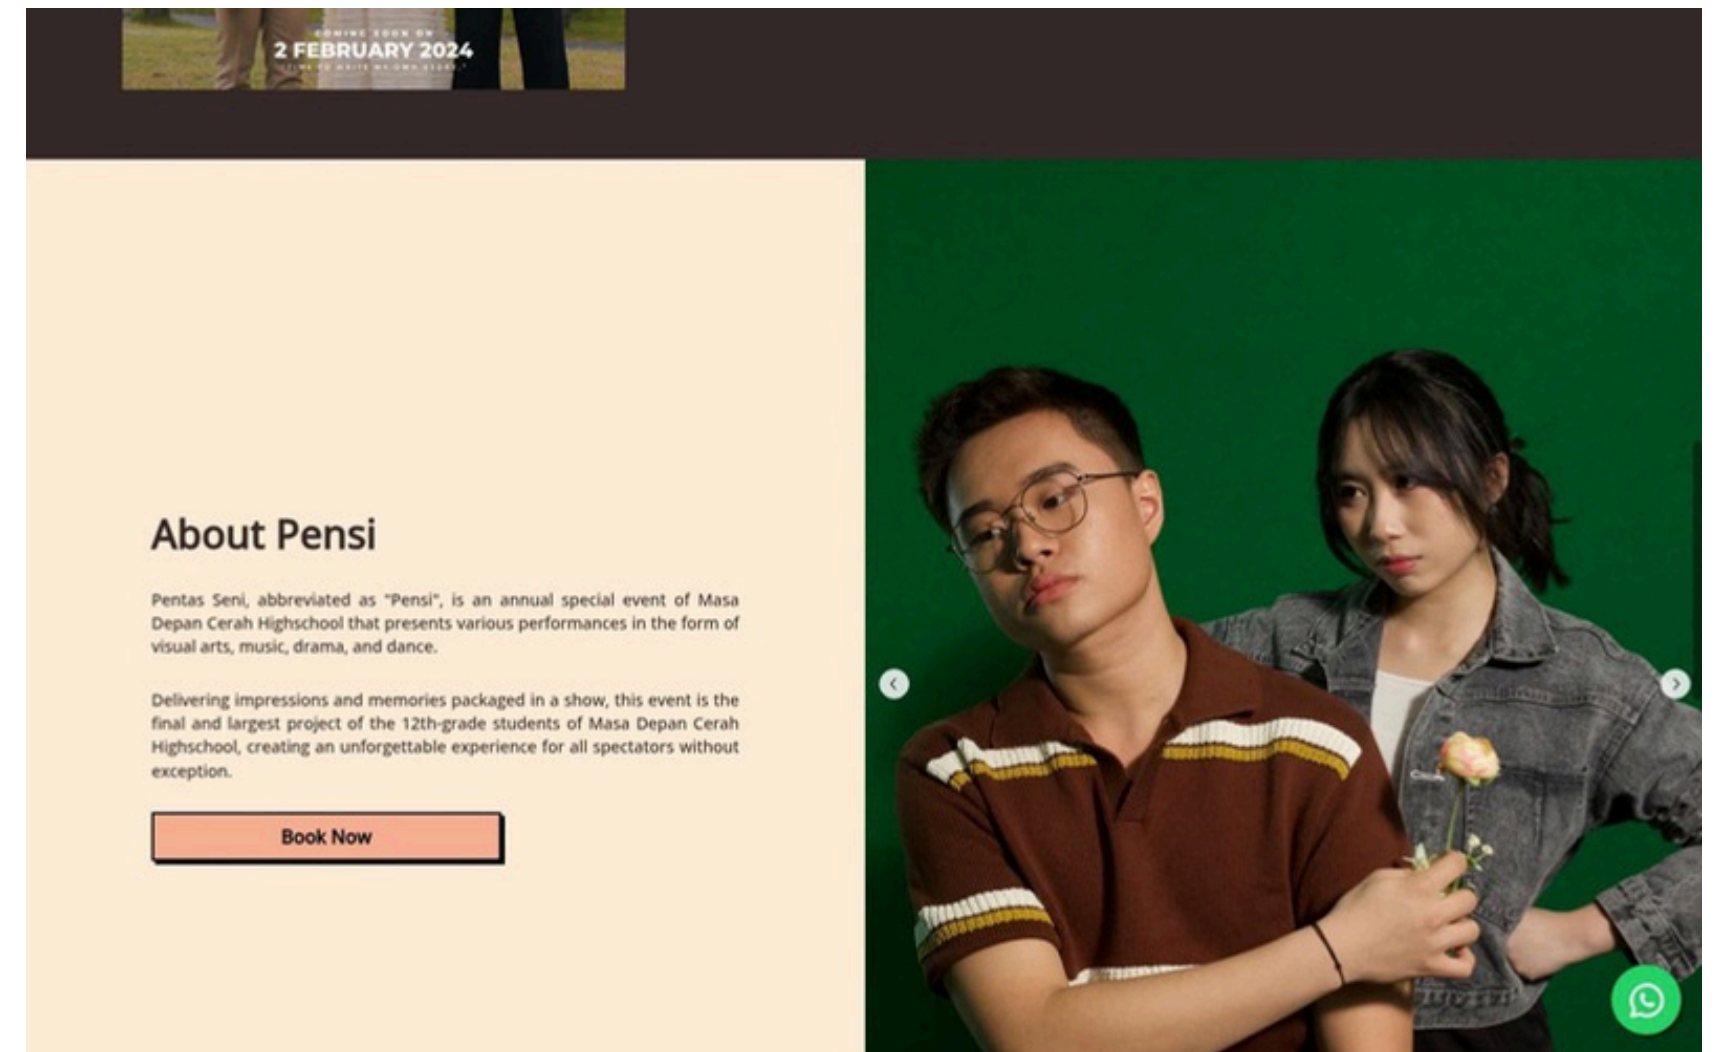

Commissioned project, 2026 · in daily use

Scale
↓
Device
↓
Android app

Pensi 2024 ticketing website

MDC Senior High School arts festival · live ticket sales

Other experience

2019 to 2023

freelance web and software projects for clients worldwide

April 2024

web development intern, CV Fiesto Informatika Indonesia

2024 to 2025

problem setter, NPLC programming competition

My plan

NOW

Informatics student, AI specialization.

NEXT

Study machine learning and use it in practical projects.

GOAL

Work as an AI or software engineer.

01

Informatics, AI

02

Web, mobile, devices

03

Machine learning

From idea to use, in my experience:

Understand the need.

Build it step by step.

Test it with real users.

Thank you.
