

Amadeus Eugene Dirgantara

Informatics student · AI and software development

Universitas Ciputra

**What do people
come to me for?**

01

Who I am

02

How I work

03

Where I'm going

Software engineering, **from simple websites to IoT and machine learning**

Informatics, AI specialization · Universitas Ciputra

How I work

LEARN

I pick up the new tools a project needs.

DESIGN

I plan the structure before I write code.

SYSTEMS

I split a problem into parts and check how they connect.

Two examples

Weighing data logger, 2026 · Pensi ticketing website, 2024

Experience

2019 to 2023

freelance web and software projects for clients worldwide

April 2024

web development intern, CV Fiesto Informatika Indonesia

2024 to 2025

problem setter, NPLC programming competition

Where I'm going

NOW

Informatics student, AI specialization.

NEXT

Keep learning across web, apps, IoT and machine learning.

GOAL

Work as a software engineer.

01

Software engineering

02

Learn, design, think in
systems

03

Software engineer

So, what do people come to me for?

Software.

Whatever kind it needs to be.

Thank you.
